

CLIMATE CHANGE TASK FORCE

INTEGRITES

RES Electricity Trading

Green Financing
IFIs, green bonds,
emissions trading

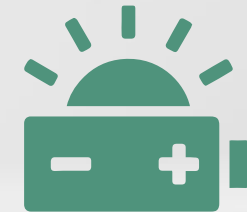

Policy Framing and Advocacy
alternative fuels,
energy storage,
tax incentives

Upgrade and Energy Efficiency
generation and
industry use

System Flexibility
storage and
maneuvering
capacities

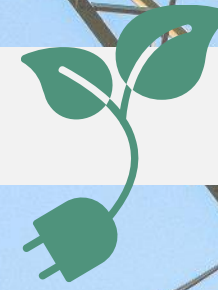

Green Hydrogen

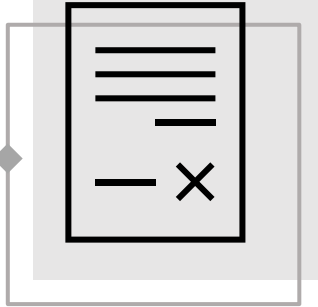

Renewables

RES ELECTRICITY TRADING

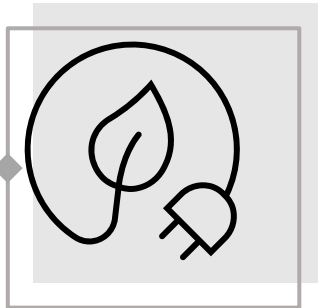

The exporters
to the EU

- Procuring RES power on the auctions by the Guaranteed Buyer's balancing group

The electricity
providers

- Participation in the market segments, power transmission and distribution agreements
- Facilitate the conclusion of the corporate PPAs

Future trend

The issuing of RES power certificates
and features of the CBAM
(cross-border adjustment mechanism)

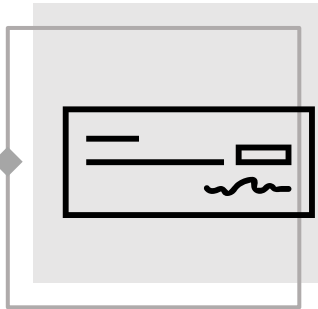

GREEN FINANCING

IFIS, GREEN BONDS, EMISSIONS TRADING

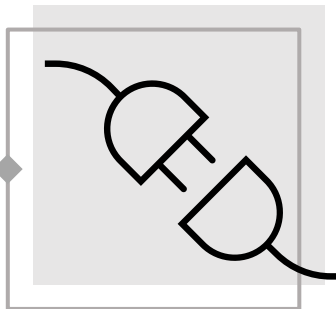

Ukrainian
businesses and
public entities

▪ We help with financing of the projects with international financial institutions

The securities
regulator
(NSSMC)

▪ We assist in creating the emissions' trading system marketplace

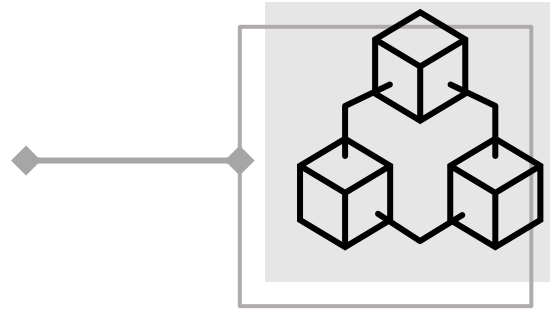

SYSTEM FLEXIBILITY

STORAGE AND MANEUVERING CAPACITIES

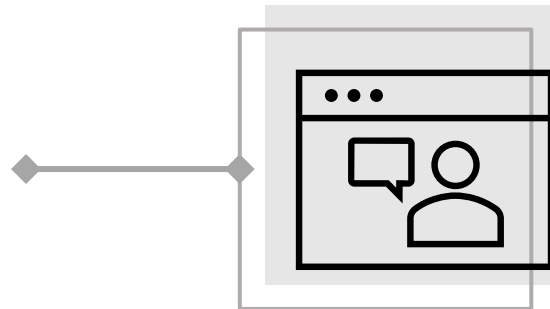

Demand-supply matching instruments: energy storage and fast-start generation

- We drive the implementation of the state aid mechanism and the contemplated public-private partnerships

Policy makers, investors and the OEM suppliers

- We advise on business models and technical side of implementing modern technology in Ukraine's United Energy System

UPGRADE OF ENERGY EFFICIENCY

GENERATION AND INDUSTRY USE

Heavy industries and others

- We support conversion and refitting of the utilities

The central district heating

- We contribute to opening up the sector for the market competition and increased efficiency through optimization and modernization

Businesses, EPC contractors and OEMs

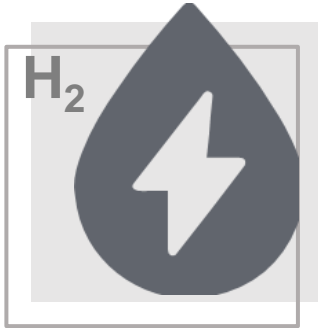

- We support implementation of industrial (decentralized) projects that bring down the carbon trace and decrease reliance on the heavy fuels and centralized grid

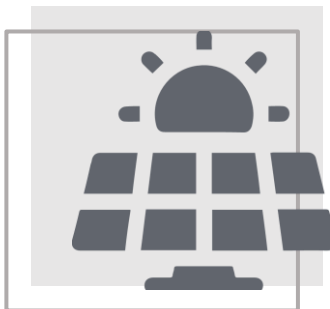

POLICY FRAMING AND ADVOCACY

ALTERNATIVE FUELS, ENERGY STORAGE, GREEN HYDROGEN, TAX INCENTIVES

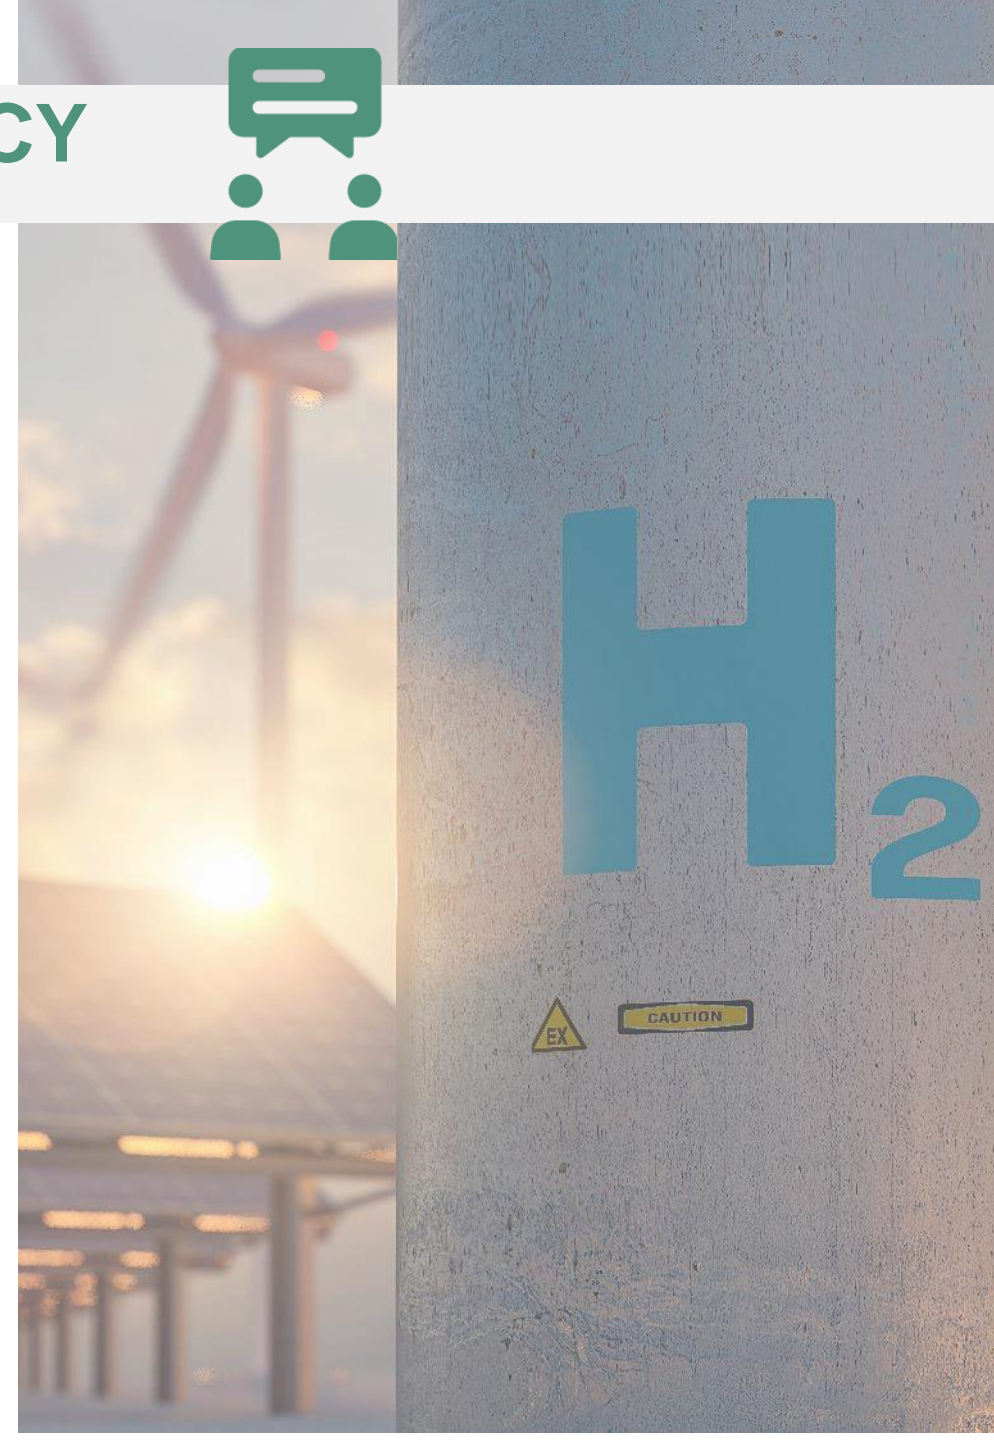

- Counselling on the legal framework regarding energy storage and alternative fuels

- Facilitating public discussions regarding hydrogen production strategy goals

- Advocating tax incentives concerning alternative energy sources
